 **GALFER** is a leading manufacturer of friction materials and components for braking systems for the motorcycling and bicycle sectors. Industrias **GALFER** began manufacturing brake pads and discs specific to MTB in 1998 developing them together in collaboration with leading European manufacturers of brake systems, and is also today, the only Spanish manufacturer of brake pads for bicycles. Almost 20 years experience in the MTB industry show that **GALFER BIKE** brake products are guarantee of quality. Currently Industrias **GALFER** still supplying brake pads and discs for the main world brands brakes. Since our company was founded in 1952, we have been known for being at the forefront of innovation, quality and organization. Today we link our experience and tradition to new technologies, cutting-edge materials and the most advanced management systems. All our products are strictly tested for quality to guarantee its safety. We are so committed with quality regulations that our quality controls exceed the ECE R-90 standards. **GALFER** business philosophy is based on the values that led us to become a world leader in braking systems. There's only a thing that our brakes cannot stop: the speed at which we enter the future.

 **GALFER** es una empresa líder en la fabricación de materiales de fricción y componentes de sistemas de frenado para los sectores de motociclismo y bicicleta. Industrias **GALFER** comenzó a fabricar pastillas y discos de freno específicas para MTB en el año 1998 desarrollándolas conjuntamente en colaboración con los principales fabricantes de sistemas de freno europeos, siendo además a día de hoy, el único fabricante español de pastillas de freno para bicicletas. Con casi 20 años de experiencia en el sector MTB los productos de freno **GALFER BIKE** son una garantía de calidad. Actualmente Industrias **GALFER** sigue suministrando pastillas y discos de freno para las principales marcas de frenos mundiales. Desde nuestra fundación, en 1952, hemos destacado por estar en primera línea en cuestiones de innovación, calidad y organización. Hoy nuestra experiencia y tradición se unen a las nuevas tecnologías, los materiales de última generación y los sistemas de gestión más novedosos. Todos nuestros productos se someten a un estricto control de calidad que garantiza su seguridad. Nuestro compromiso con la legislación en materias de calidad es tal que nuestros controles superan los estándares de la directiva ECE R-90 vigente. El espíritu empresarial de **GALFER** se fundamenta en la apuesta por los valores que nos han llevado a consolidarnos como el referente internacional en sistemas de frenado. Lo único que nuestros sistemas no pueden frenar es la velocidad con que nos adentramos en el futuro.

 **Industrias Galfer** è un'azienda leader nella produzione di materiali di attrito e impianti frenanti per i settori del motociclismo e del ciclismo. Sin dalla sua fondazione, nel 1952, ci siamo contraddistinti per essere all'avanguardia in quanto a innovazione, qualità e organizzazione. Oggi la nostra esperienza e la nostra tradizione si uniscono alle nuove tecnologie, ai materiali di ultima generazione e ai più innovativi sistemi di gestione. Per restare all'avanguardia sul mercato e conoscere dettagliatamente le esigenze del settore, il reparto R+S+i di **GALFER** collabora strettamente con vari team di alta competizione di livello mondiale. Tutti i nostri prodotti sono sottoposti a severi controlli di qualità che ne garantiscono la sicurezza. Il nostro impegno verso l'ottemperanza alle disposizioni di legge in materia di qualità è tale che i nostri controlli superano persino gli standard della Direttiva ECE R-90, attualmente in vigore. Lo spirito imprenditoriale di **GALFER** è fondato sui valori che ci hanno portato a consolidarci come riferimento internazionale nel settore degli impianti frenanti. L'unica cosa che i nostri impianti non possono frenare è la velocità con cui sfrecciamo verso il futuro.

 **Innovation has been GALFER driving force for more than 60 years. In this extremely demanding market, we know that the only way of staying ahead our competitors and to continue being a world reference in the manufacturing of braking systems is to invest in continual improvement. Our team at the R&D department combines their passion and enthusiasm with the latest technology to offer the best final product, with improved brake power, reduced wear, and less noise, preferred by major original equipment manufacturers (OEM).**

 **La innovación es la fuerza motriz de GALFER desde hace más de 60 años. En un mercado extraordinariamente exigente, sabemos que la única manera de mantenernos por delante de nuestros competidores y continuar siendo el referente mundial en sistemas de frenado es invertir en la mejora constante. La pasión y el entusiasmo de las personas que integran nuestro departamento de I+D+i se combinan con la tecnología de última generación para ofrecer un producto final excelente, con una mayor potencia de frenada, un menor desgaste y el mínimo ruido, preferida por los principales fabricantes de equipos originales (OEM).**

 **L'innovazione è la forza motrice di GALFER da oltre 60 anni. Sappiamo che, in un mercato incredibilmente esigente, l'unico modo di anticipare la concorrenza e continuare a essere il riferimento mondiale nel settore degli impianti frenanti, è investire nel miglioramento costante dei nostri prodotti. La passione e l'entusiasmo dei membri del nostro reparto R+S+i si fondono con le tecnologie di ultima generazione al fine di offrire un prodotto finale eccellente che garantisce una maggiore potenza di frenata e consumi e rumori minimi, preferito dai principali produttori di attrezzature originali (OEM).**

 **Quality management is essential for the evolution of our products. All pieces are tested under strict quality control measures to ensure the highest degree of safety and performance. GALFER has obtained the ISO 9001 Quality certified. In order to stay up to date with the current trends and to address the needs of the sector, GALFER is in the process of obtaining the ISO/TS 16949 certification.** **QUALITY POLICY**

- **MISSION:** To offer friction materials and components for comprehensive brake system solutions.
- **VISION:** To become an international benchmark for braking systems.
- **INNOVATION:** Continual introduction of new technologies to offer improved products to the market.
- **ASSURANCE:** Offering solutions fitted to our clients needs and to complying with current laws in all our activities, as well as any other agreed requirements related to the management system.
- **CONFIDENCE:** By means of innovation and implementation of a quality management system based on continual improvement.
- **EFFICIENCY:** Encouraging teamwork and facilitating direct and customized attention to our clients and complying with all our products specifications.
- **SUSTAINABILITY:** Respecting the environment and minimizing the environmental impact.
- **SAFETY:** Investing and training to guarantee the maximum safety and occupational health.
- **ACCOUNTABILITY:** Ethical and responsible management in all our activities.

 **El Departamento de Calidad es clave en la evolución de nuestros productos. Todas las piezas se someten a un estricto control de calidad para garantizar su máxima seguridad y prestaciones. GALFER posee la certificación de Calidad ISO 9001. Para no perder rueda con las tendencias actuales y asumir las exigencias del sector, GALFER está en proceso de obtención la certificación ISO/TS 16949. POLITICA DE CALIDAD**

- **MISIÓN:** Ofrecer materiales de fricción y componentes para soluciones integrales de sistemas de frenado.
- **VISIÓN:** Convertirnos en un referente internacional en sistemas de frenado.
- **INNOVACIÓN:** incorporación constante de nuevas tecnologías para aportar mejoras de productos al mercado.
- **GARANTÍA:** ofrecer soluciones ajustadas a los requisitos de nuestros clientes y cumplir con la legislación vigente en todas nuestras actividades, así como otros requisitos suscritos relacionados con el sistema de gestión.
- **CONFIANZA:** mediante la innovación y la implantación de un sistema de gestión de calidad basado en la mejora continua que garantice los resultados esperados.
- **EFICACIA EN LA GESTIÓN:** fomentando el trabajo en equipo y facilitando un trato directo y personalizado a nuestros clientes y cumpliendo todas las especificaciones de nuestros productos.
- **SOSTENIBILIDAD:** respeto al medio ambiente y minimización del impacto medio ambiental.
- **SEGURIDAD:** inversión y formación para garantizar la máxima seguridad y salud en el trabajo.
- **RESPONSABILIDAD:** gestión ética y responsable en todas nuestras actividades.

 **Le nostre attività di R & S sono la chiave per l'evoluzione dei nostri prodotti. Ogni pezzo viene sottoposto a severi controlli di qualità e garantisce la massima sicurezza e prestazioni. Nell'intento di seguire la tendenza del mercato, Galfer è migliorare il suo attuale sistema qualitativo gestionale ISO 9001 passando al sistema IATF 16949, obiettivo è di supplire a tutte le esigenze del settore automozione far fronte a tutte le necessità dei propri clienti.** **POLITICA DI QUALITÀ**

- **LA NOSTRA MISSIONE:** Offrire i migliori materiali di attrito e componenti per soluzioni integrate di sistemi frenanti. L
- **A NOSTRA VISIONE:** Diventare leader internazionale dei sistemi frenanti.
- **INNOVAZIONE:** Adottare nuove tecnologie per sviluppare e migliorare i prodotti sul mercato.
- **GARANZIA:** Offrire soluzioni adatte alle esigenze dei nostri clienti e rispettare la normativa vigente in tutte le nostre attività, nonché gli altri requisiti relativi al sistema di gestione.
- **AFFIDABILITÀ:** Garantire i risultati attraverso l'innovazione e l'implementazione di un sistema di gestione della qualità basato sul miglioramento continuo.
- **GESTIONE EFFICACE:** Favorire il lavoro di squadra, procurare un'attenzione diretta e personalizzata ai nostri clienti e compiere tutte le specifiche dei nostri prodotti.
- **SOSTENIBILITÀ:** Rispettare l'ambiente e cercare di minimizzare l'impatto ambientale.
- **SICUREZZA:** Investire in formazione per garantire la massima sicurezza e la salute nel luogo di lavoro.
- **RESPONSABILITÀ:** Essere etici e responsabili in tutte le nostre attività.

🇬🇧 All GALFER products (discs, pads and brake lines) are designed and manufactured in our 6000 sq. meters factory at Granollers (Barcelona), next to the Circuit de Catalunya. The production process begins in the R&D Department, responsible for launching new products. The materials are developed in our laboratories and then chemical and physical tests are conducted. Once this phase is completed and to determine their going into production further tests are conducted on a vehicle. The Department of Methodology designs the production processes with the Engineering Department. Finally, the Quality Department certifies the quality and reliability of our products according to ISO standards. We are members of the FEMFM (Federation of European Manufacturers of Friction Materials), and we have worked together for the European Quality Manual of disk pads, drum brake calipers and clutches.

🇪🇸 Todos los productos GALFER (discos, pastillas y latiguillos de freno) se diseñan y se producen en la fábrica de Granollers (Barcelona), unas instalaciones de 6000 m² situadas al lado del Circuit de Catalunya. El proceso productivo se inicia en el Departamento de I+D+i, que se encarga del lanzamiento de nuevos productos. Nuestros laboratorios desarrollan los materiales y los someten a pruebas químicas y físicas. Superada esta fase, se realizan las pruebas sobre el vehículo para determinar el paso a producción. El Departamento de Metodología diseña los procesos productivos en conjunción con el Departamento de Ingeniería. En último lugar interviene el Departamento de Control de Calidad, que certifica la calidad y fiabilidad de nuestros productos siguiendo las normas ISO. Somos miembros de la FEMFM (Federation of European Manufacturers of Friction Materials), con la que hemos colaborado en la elaboración del Manual de Calidad europeo para pastillas de frenos de disco, mordazas de freno de tambor y embragues. La pasión y el entusiasmo de las personas que integran nuestro departamento de I+D+i se combinan con la tecnología de última generación para ofrecer un producto final excelente, con una mayor potencia de frenada, un menor desgaste y el mínimo ruido, preferida por los principales fabricantes de equipos originales (OEM).

🇮🇹 Tutti i prodotti GALFER (dischi, pastiglie e tubi freno) sono progettati e prodotti nella fabbrica di Granollers (Barcellona), i cui stabilimenti occupano una superficie di 6000 m² accanto al Circuit de Catalunya. Il processo produttivo ha inizio nel reparto di R+S+i, responsabile del lancio di nuovi prodotti. I nostri laboratori sviluppano quindi i materiali e li sottopongono a test chimici e fisici. Superata questa fase, si eseguono prove sul veicolo per determinare se il prodotto possa entrare nella fase di produzione. Il reparto di metodologia sviluppa i processi produttivi in collaborazione con il reparto ingegneria e, infine, interviene il reparto di Controllo qualità, che certifica, appunto, la qualità e l'affidabilità dei nostri prodotti conformemente alle norme ISO. Siamo membri della FEMFM (Federation of European Manufacturers of Friction Materials), con cui abbiamo collaborato alla redazione del Manuale di qualità europeo delle pastiglie per freni a disco, ganasce per freni a tamburo e frizioni.

BERRIA

BRAKE PADS

 **Features and advantages of the new compounds GALFER BIKE:**

- **Organic semi-metal compound (non asbestos)**
- **Absence of noise.**
- **Better feeling, progressiveness and braking power.**
- **Minimization of vibration to the wheel.**
- **Less wear on the brake discs.**
- **Resistance to high temperatures.**
- **Increased durability.**

With these enhancements the user gets a permanent braking response, with the same behavior throughout his life, improving bicycle control and increase confidence and security of the rider.

The materials used for manufacturing these compounds are specific to the sector of bicycle and its variables (weight, ground, humidity, temperature, noise, etc.).

Similarly, GALFER has a wide variety of different compounds for motorcycles (road, off-road, urban, sport, competition, etc..)

 **Características y ventajas de los nuevos compuestos de GALFER BIKE:**

- Compuesto orgánico semi-metálico (sin amianto)
- Ausencia de ruidos.
- Mejora del tacto, progresividad y potencia de frenada.
- Minimización de las vibraciones en la parte ciclo.
- Menor desgaste de los discos de freno.
- Resistencia a las altas temperaturas.
- Aumento de la durabilidad.

Con éstas mejoras el usuario obtiene una constancia permanente en la respuesta de la frenada, comportándose las pastillas del mismo modo durante toda su vida útil, pudiendo controlar la bicicleta durante las frenadas y transformándose en un aumento de la confianza y de la seguridad del ciclista.

Cabe destacar que los materiales que se han utilizado para la fabricación de éstos compuestos son específicos para el sector de la bicicleta y sus variables (pesos, terreno, humedad, temperaturas, ruidos, etc).

Del mismo modo, GALFER tiene una amplia variedad de compuestos distintos para motocicletas (carretera, tierra, urbano, sport, competición ,etc.)

 **Caratteristiche e vantaggi delle mescole GALFER BIKE:**

- Composto organico semi-metallico (senza amianto).
- Riduzione del rumore per sfregamento disco-pastiglia.
- Più sensibilità, potenza e risposta nella frenata.
- Riduzione delle vibrazioni.
- Minor consumo dei dischi freno.
- Resistenza ad alta temperatura.
- Maggiore durata della pastiglia

Grazie ad anni di ricerca e sviluppo e prove con piloti professionali, l'utente avrà sempre una grande risposta di frenata, fin dal primo utilizzo, trasmettendo più confidenza e sicurezza con la sua bicicletta.

I materiali usati per la fabbricazione di questi composti sono specifici per il settore delle bici e tutte le sue variabili (peso, terreno, umidità, temperatura, rumori, etc..).

Allo stesso modo GALFER produce una ampia varietà di differenti composti per motociclette (asfalto, sterrato, urbano , sport , competizioni, etc..).

BRAKE DISCS

UK Laser-cut from high-carbon stainless steel, they are a direct application of top-competition technology made available to all users. They replace the original discs without the need for adaptation or manipulation. Made in Spain, all Galfer brake discs have anti-corrosion treatment, are lighter than most discs on the market and do not emit noise or vibration.

ES Cortados en láser a partir de acero inoxidable de alto contenido en carbono, suponen la aplicación directa de una tecnología de la alta competición al alcance de cualquier usuario. Reemplazan a los discos originales sin necesidad de adaptación o de manipulación. Fabricados en España, todos los discos de freno Galfer cuentan con un tratamiento anti-corrosión, con un peso inferior a la mayoría de disco del mercado y no emiten ruidos o vibraciones.

IT Realizzati con taglio laser a partire da acciaio inossidabile ad alto contenuto di carbonio, sono il risultato di una tecnologia ad alta competitività messa a disposizione di tutti. Sostituiscono i dischi originali senza necessità di adattamento e manipolazione. Prodotti in Spagna, tutti i dischi dei freni Galfer sono sottoposti a trattamento anticorrosione, hanno un peso inferiore alla maggior parte dei dischi sul mercato e non emettono suoni o vibrazioni.

Disc Wave®

UK Classic Disc Wave®:

- Sturdiness.
- Aggressive bite.
- Superior pad cleaning capacity.
- Ideal for mud and wet conditions.

ES Disc Wave® Classic:

- Robustez.
- Mordida agresiva.
- Gran capacidad de limpieza de la pastilla.
- Ideal para barro y humedad.

IT Disc Wave® Classic:

- Solidità.
- Presa potente.
- Grande capacità di pulizia delle pastiglie.
- Ideale con fango e umidità.

Disc Shark®

ES Disc Shark®:

- Mayor potencia de frenada en condiciones exigentes de calor.
- Estabilidad térmica, menor fatiga.
- Menor temperatura de trabajo.
- Mayor durabilidad de las pastillas.

IT Disc Shark®:

- Maggiore potenza in frenata in condizioni di calore estremo.
- Stabilità termica, minor fatica.
- Minore temperatura d'esercizio.
- Maggior durata delle pastiglie.

ROAD

UK Road/Gravel:

- Lightness.
- High modularity.
- Good heat dissipation.
- Recommended for Gravel and Road.

ES Road/Gravel:

- Ligereza.
- Buena modularidad.
- Buena disipación térmica.
- Recomendado para Gravel y Carretera.

IT Road/Gravel:

- Leggerezza.
- Buona modularità.
- Buona dissipazione termica.
- Raccomandato per Gravel e Road.

CHOOSE THE COLOR THAT MATCHES BETTER WITH YOUR BIKE!

iELIGE EL COLOR QUE MEJOR COMBINE CON TU BICI!

SCEGLI IL COLORE CHE SI ABBINA MEGLIO ALLA TUA BICI!

Geometric optimization of the structure to achieve a lower weight as well as provide it with greater resistance. The joint geometry between the two pieces is totally new. In addition, more reinforced notelines are added. The thickness is increased from 1.8 to 2mm to provide it with greater rigidity and thermal stability. Black finished steel center.

UK The Disc Shark®'s design means that less pressure is required in the brake line under the most fatiguing conditions, meaning less effort is required to brake. This translates into a 5-10% increase in braking power under normal conditions.

ES Gracias al diseño Disc Shark®, este disco requiere de una menor presión en el circuito de freno en condiciones más exigentes de fatiga, lo que supone un menor esfuerzo para frenar. Esto se traduce entre un 5-10% más potencia de frenada en condiciones habituales.

IT Grazie al design Disc Shark®, questo disco richiede una pressione inferiore sul circuito frenante anche nelle condizioni più gravose, determinando uno sforzo di frenata minore. Ciò si traduce in una potenza di frenata del 5-10% superiore in condizioni normali.

UK The Disc Shark® drastically reduces the operating temperature - a 30% reduction compared to other high-end discs currently on the market - and is manufactured as one piece for greater strength.

ES El Disc Shark® reduce drásticamente la temperatura de trabajo un 30% respecto a los discos de gama alta del mercado actual y, además, está construido en una sola pieza para lograr una mayor solidez.

IT Il Disc Shark® riduce drasticamente la temperatura di esercizio del 30% rispetto ai dischi freno di alta gamma attualmente sul mercato ed è costruito in un unico pezzo per avere una solidità maggiore.

UK Even in the least favourable conditions in terms of temperature (steep gradients, high speeds, high ambient temperature and large mass), the Disc Shark® maintains stable and consistent behaviour at all times. Its structural design adapts to the different disc diameters to achieve adequate stiffness for each model.

ES Incluso en las condiciones más desfavorables de temperatura (con grandes pendientes, altas velocidades, mucho calor ambiental y peso elevado), el disco Disc Shark® mantiene un comportamiento estable y consistente en todo momento. El diseño estructural se adapta a los diferentes diámetros del disco para lograr una rigidez adecuada en cada medida.

IT Anche nelle condizioni di temperatura più sfavorevoli (con elevati dislivelli, alte velocità, alte temperature ambientali e peso elevato), il disco Disc Shark® mantiene un comportamento stabile e regolare in qualsiasi situazione. Il design strutturale si adatta ai diversi diametri del disco per raggiungere la giusta rigidità indipendentemente dalla dimensione.

UK The Disc Shark® is lighter than most other high-end brake discs on the market thanks to the optimised design of both the rotor and the hub.

ES El Disc Shark® es más ligero que la mayoría de los discos de freno de alta gama del mercado gracias a su diseño optimizado, tanto en la pista de frenada como en el núcleo.

IT Il design ottimizzato rende il Disc Shark® più leggero rispetto alla maggior parte dei dischi freno di alta gamma presenti sul mercato, sia per quanto riguarda la pista che il nucleo.

BRAKE CLEANER

500 ml.

Specially formulated for cleaning: brake discs, brake pads, rims and braking tracks. Removes grease, dust and sludge residues. Reconditions the surface of the pads avoiding their crystallization and sudden wear. Water-repellent, after washing, eliminates residual detergents and residual moisture. It has a very strong spray rate that immediately removes dirt. Quick evaporation and leaves no oily residues. Does not affect rubber, plastic, aluminum and carbon, compatible with all components of your bike. Excellent quick detergent/degreaser, melts glue residues.
