FLOATING BRAKE DISC

DBO13FLW* / DBO14FLW*

New floating brake disc 180mm & 203mm (2,0mm thickness) black steel center and colored pins.

COMPATIBLE

180mm 6 bolts.

203mm 6 bolts.

FEATURES

Geometric optimization of the structure to achieve a lower weight as well as provide it with greater resistance. The joint geometry between the two pieces is totally new. In addition, more reinforced notolines are added. The thickness is increased from 1.8 to 2mm to provide it with greater rigidity and thermal stability. Black finished steel center.

***Colored pins available in 6 colors: green (G), red (R), blue (B), gold (Y), orange (O) and purple (P).**
